

5004 Electronic Depth Gage

The 5004 Depth Gages are ideal for large parts. Three sizes are offered with the largest able to measure depths to 24"/600mm. These depth gages are made from hardened stainless steel and are coolant resistant.

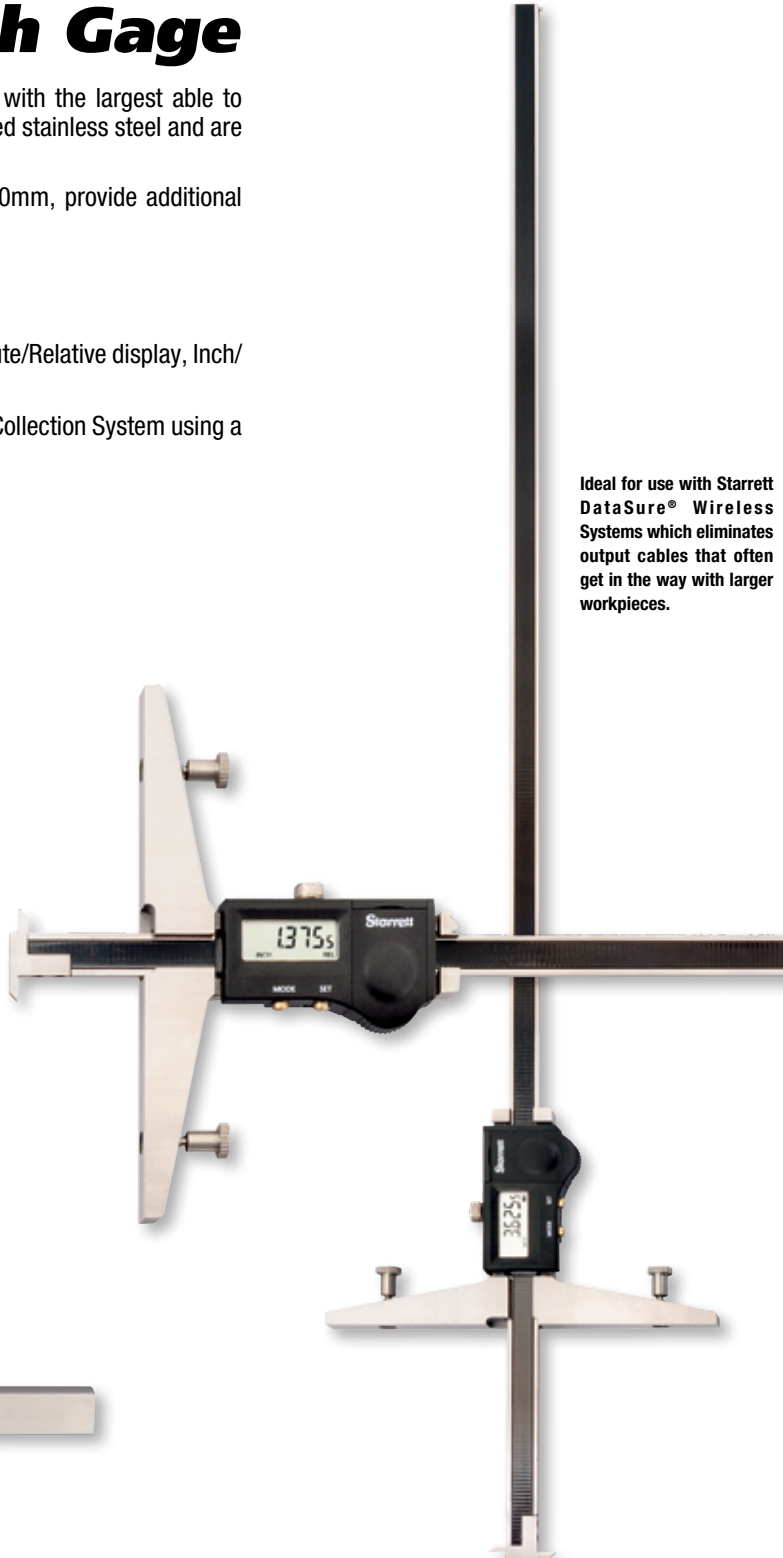

Three movable bridge attachments, the largest with a capacity of 24"/600mm, provide additional large part measurement capability.

Features & Specifications

- Two buttons, Mode and Set, control a range of functions: On/Off, Absolute/Relative display, Inch/Metric display, Preset and Hold
- RS232 port allows data transmission thru a DataSure® Wireless Data Collection System using a 1500-3A-1N End node. Will also transmit through a connected cable.
- Uses one CR2032 lithium battery. Over one year life with normal use.
- Includes wooden case
- Resolution: 0.0005"/0.01mm
- Includes offset attachment PT06136

Ideal for use with Starrett DataSure® Wireless Systems which eliminates output cables that often get in the way with larger workpieces.

5004 Electronic Depth Gage			
Cat. No.	EDP	Description	Range/Size
5004BZ-16/400	14584	Electronic Depth Gage	0-16"/0-400mm
5004BZ-20/500	14585	Electronic Depth Gage	0-12"/0-500mm
5004BZ-24/600	14586	Electronic Depth Gage	0-24"/0-600mm
PT06133	12825	Movable Bridge Attachment	16"/400mm
PT06134	12826	Movable Bridge Attachment	20"/500mm
PT06135	12827	Movable Bridge Attachment	24"/600mm
PT06136	12828	Offset Attachment	1.024"/26mm overall length

Moveable Bridge Attachment add large part capability to B5004 Depth Gages (up to 24"/600mm bridge attachments available)
