

TILE DRILLS

Starrett developed three major product lines to meet their customer's performance and quality needs.

Diamond tile drill bits feature synthetic diamonds engineered for drilling tile, glass and ceramic. Diamond edge saws produce clean accurate cuts and offer extended life well beyond that of conventional tools.

Diamond tile drill bit kit features 6 hole saws, 1 knock out pin and convenient carrying case.

Diamond Tile Drill Guide

Water Cooling Dispenser

Guide is used in place of a traditional hole saw pilot bit. It includes rubber feet and hand hold allowing user to secure guide without scratching work surface. Plastic water dispensing bottle used to applying coolant to drill bit.
