

3732 Electronic Micrometers

Starrett®

Reliable, Durable & Economical

3732 micrometers provide Starrett durability and reliability in a full function, economical non-output electronic micrometer.

The series includes ranges of 0-1" to 5-6" English/Metric and 0-25mm to 125-150mm Metric/English electronic micrometers.

Four-piece and six-piece English/Metric sets are also available.

Features and Specifications

- Extra large digital display
- Automatic OFF after 30 minutes of nonuse
- .250" (6.35mm) spindle
- Smooth friction thimble for uniform pressure
- Micro-lapped carbide faced spindle and anvil
- No-glare black wrinkle finish on frame
- No-glare satin chrome finish on thimble and sleeve
- Balanced frame for comfortable and accurate measuring
- Ring-type knurled lock nut for quick and sure locking
- English/Metric models have inch graduations on shell and thimble and display English units at power up
- Metric/English (ME) models have mm graduations on shell and thimble and display metric units at power up
- Uses a single CR2032 3V battery with 1+ year life, low battery LED and easy access
- Fitted plastic case

Electronics & Operation

- Movement of the spindle or push of a button will activate the display with no loss of position reading
- Change inch/mm mode with one short push of the IN/mm/SET button
- A sustained push of the IN/mm/SET button will enter the PRESET to install readings at any position
- ZERO/ABS button: Short push of this button will zero the display at any point (“incremental mode”) and display will read “INC”. A sustained push will return the display to the original (“absolute mode”) and display will read “ABS”.
